WORK EXPERIENCE

Integra Software Services Pvt. Ltd. Feb 2026 – Jun 2026
E-Learning Associate

- **Developed and implemented front-end code changes** for the Edmentum e-learning platform based on client requirements, ensuring cross-browser UI consistency.
- **Debugged and resolved UI and functionality issues** in collaboration with QA and engineering teams, shipping responsive, cross-device webpage code within sprint deadlines.

TECHNICAL PROJECTS

University Student Voting App	Oct 2025 – Dec 2025
• Developed a secure campus voting app with role-based access and real-time vote tallying, using geofencing and fingerprint authentication for one-vote-per-user integrity. <i>Tech: Android, Java, Firebase, ML Kit, BroadcastReceiver</i>	
University Finance Administration System	Jul 2025 – Sept 2025
• Built a role-based financial management system handling budget allocation, expense tracking, fee management and automated report generation. <i>Tech: PHP, MySQL</i>	
Research Paper Entity Management System	Apr 2025 – May 2025
• Developed a CRUD application for managing research paper metadata with search, sorting and document organization features. <i>Tech: MongoDB, Express.js, React, Node.js (MERN)</i>	
Smart Travel Mode	Jan 2025 – Mar 2025
• Designed an Android app that automatically triggers SMS alerts via a Foreground Service upon detecting Airplane Mode changes. <i>Tech: Android, Java, BroadcastReceiver</i>	

CERTIFICATIONS

- Askan Technologies — Certified Web Developer
